

Description

Single and multipole magnetic circuit breakers with trip-free mechanism and toggle actuation. A choice of fast magnetic or hydraulically delayed switching characteristics (S-type MO or HM CBE to EN 60934) ensures suitability for a wide range of applications. Industry standard dimensions and panel mounting. Options include auxiliary changeover contacts. Low temperature sensitivity at rated load.

Approved to CBE standard IEC/EN 60934 S-type HM CBE.

Typical applications

Communications systems, power supplies, switchgear and control-gear industrial process measurement and control.

Standard current ratings and typical internal resistance values

Current rating (A)	Internal resistance (Ω) per pole $\pm 10\%$	
	K1, M1, T1	K2, M2, T2
1 1.04	1.03	
2 0.22	0.22	
3 0.11	0,11	
4 0.06	0.06	
5 0.04	0.04
